INSTRUCTIONS FOR LOSS ADJUSTMENT WORKSHEET

Purpose: To adjust your adjusted business income to qualify for the small business credit or minimize the reduction percentage required.

If your adjusted business income was less than zero in any of the five years immediately preceding the tax year for which you are claiming a credit, and you received a small business credit for that same year, you may adjust for the loss before you figure your eligibility for the small business credit. A loss adjustment will not affect a reduction to the small business credit based on gross receipts that exceed 9 million. It will also not change the amount of allocated income on C-8000KC, Column K for a C-corporation.

Part 1: Current Year Amounts

Use this part to determine the amount of loss adjustment necessary to qualify for the small business credit.

If you are not eligible for the credit because your adjusted business income exceeds \$475,000, complete lines 1 through 3.

If you are not eligible because you have a shareholder whose allocated income exceeds \$115,000 or a partner with distributive income that exceeds \$115,000, complete lines 4 through 9 for the shareholder or partner creating the disqualifier.

Note: For the purpose of computing the small business credit, a member of an LLC is treated as a partner if the LLC is taxed as a partnership.

You may have to calculate both if you have more than one disqualifier. Complete lines 4 through 9 for *each* shareholder or partner who creates a disqualifier. The loss adjustment required is the largest amount needed to eliminate all disqualifiers.

Reduced small business credit. A reduction of the small business credit is required if an individual, a partner in a partnership or shareholder or officer of a corporation has allocated income after loss adjustment of more than \$95,000. This reduction is based on the individual/partner/officer/shareholder with the largest allocated income.

Complete lines 4 through 9 for the shareholder or partner creating the need to reduce the small business credit.

The loss adjustment worksheet should always be calculated initially using \$95,000 on line 5. This calculation will establish your eligibility without the need to reduce the small business credit. However, if the total loss available for the current year on line 13 does not equal or exceed the loss adjustment required on line 9,

you may still calculate a lesser loss adjustment to enable you to claim a reduced credit.

You may have to try the calculation more than once. Substitute the numbers shown on the chart below on line 5 in order to maximize your claimed small business credit:

Line 5	Eligible % of credit
\$ 95,000	100% - no reduction
\$ 99,999	80%
\$104,999	60%
\$109,999	40%
\$115,000	20%

The SBT loss adjustment worksheet is structured for corporations. To use it for a partnership or member of a controlled group, make these changes.

- **Partnerships.** Enter on line 6 any guaranteed payments made to the partner creating a \$115,000 disqualifier. On line 8, divide by the percentage of ownership from the C-8000KP, col. D.
- **Controlled Groups.** A member of a controlled group may use this form for the shareholder compensation disqualifier (lines 4 through 9). The adjustment must come from the same company. The business income disqualifier must be calculated on a consolidated basis. Substitute consolidated figures for lines 1- 3 and lines 10 - 15.

Part 2: Available Loss

Use this section to determine the loss available from the five preceding years.

Line 10. Enter 'Y' under each year that a small business credit was received.

Line 11. Enter the adjusted business income from C-8000C, line 9 for each tax year that reported a loss. Report the loss in brackets.

Lines 12 - 15. Continue to fill out each year's column only if you entered a Y on line 10 *and* the adjusted business income reported on line 11 was a loss.

Note: To benefit from a loss adjustment, the total loss available for the current year, line 13, must equal or exceed the loss adjustment required on line 14.
